1. Executive Summary

Camadro, Inc., owner/operator of FreeArcade.com since 1999, has recognized that online interactive game play is the answer to developing online product awareness, consumer purchase and loyalty. For this reason, the company is making their interactive gaming inventory and development services available.

To assist companies with their online interactive content, we are offering existing games found on FreeArcade.com through various licensing opportunities outlined below. Licensing these games provides instant in mass interactive content consisting of limited exposure unique games with quality game play. (Examples of offered puzzle, arcade, casino, sports, graphic adventure, and fast-simple games can be found in Appendix 1 at the end of this document.)

Also, to meet the demands of companies that want absolutely unique interactive content we are offering game development services of game graphics, programming, refacing and branding at hourly rates.

Finally, fixed fee game development from concept to delivery is available by request for quote.

A company can feel comfortable with choosing Camadro to provide these services because Camadro has the experience, proven game inventory development, and market knowledge from successfully and profitably operating FreeArcade.com, one of the top gaming websites on the internet, for the last 6 years.

Non-Exclusive Game License:

Term of License	<u>1 month</u>	<u>1 year</u>	<u>Unlimited</u>
1 Game	\$ 200	\$ 2,000	\$ 4,000
5 Game Bundle	800	8,000	18,000
10 Game Bundle	1,700	17,000	34,000

Game Development:

Custom Game Development	Rate (per hour)
Graphics	\$60
Programming	\$85

2. Introduction

For companies that have a strategy of providing online interactive content to promote brand/product awareness, purchase, and loyalty, Camadro, Inc. is offering games and game development services.

Companies have recognized that interactive content is one way to promote their brands with online users. Interactive game play is a fast growing way to provide this content.

Companies that are implementing this strategy do not have the experience, knowledge and skillset necessary to develop online games. Camadro can fill this need in a qualified manner.

During the last six years, Camadro has blended a low cost game development and delivery process that utilizes internal and independent subcontracting skills to offer new and unique games for free to internet users year after year.

Beginning with offering Java games in 1999, Camadro has evolved to offering over two hundred Java, Flash and Shockwave games on FreeArcade.com in all categories of types of games including Puzzle, Arcade, Casino, Card, Sport, Graphic Adventure, Fast-simple, and Space Shooter.

It is this experience and knowledge from six years of game content inventory development that sets us apart from other companies. Our game inventory and development is backed by six years of successful operation of an actual gaming site.

3. Game Licensing

For companies that wish to leap forward by providing quality interactive content “in mass”, we are offering licensing of existing games that we own. These games can be exclusive or non-exclusively licensed and are published currently on FreeArcade.com. These games have proven existing game play demographics and statistics. This information is provided in Appendix 1.

We have bundled existing games in the following pricing strategies:

Non-Exclusive Game License:

Term of License	<u>1 month</u>	<u>1 year</u>	<u>Unlimited</u>
1 Game	\$ 200	\$ 2,000	\$ 4,000
5 Game Bundle	800	8,000	18,000
10 Game Bundle	1,700	17,000	34,000

Additional details are:

- Games files are located on purchaser’s servers.
- Pricing for games delivered from Camadro servers are available by request.
- A 5 Game Bundle consists of five games.
- Pricing for Game Bundling greater than 10 games is available by request.
- Exclusive licensing is available upon request.
- Game custom refacing or branding is also available see Custom Game Development Pricing.

Screen shots of games, game development statistics and player demographics are included in Appendix 1.

4. Game Development

For companies that would like to provide new, unique and exclusive games, Camadro can partner in custom game development. Camadro involvement can consist of:

- game programming services
- combination of graphics and game programming
- game refacing or branding
- complete game development from concept to delivery.

Custom game development hourly rates are as follows:

Custom Game Development	Hourly Rate
Graphics	\$60
Programming	\$85

Fixed fee Custom Game Development quoting is available upon request.

We are comfortable with working in a managed project environment and understand the necessity and importance of setting deadlines and meeting those commitments. Camadro has over 15 years of programming project management on staff.

For companies that need unique interactive content in mass, we can also provide the graphic and programming resources necessary to develop multiple games with the same completion date.

5. Contact Information

We would be happy to discuss any of the above game licensing or services or any other partnerships not outlined above.
